THE REPUBLICAN NATIONAL CONVENTION.

A National Convention of the Republican party
will meet at Chicago, Wednesday, the 2d day
of June next, for the nomination of candidates to
be supported for President and Vice President at the
next election.

Republicans, and all who will co-operate with
them in supporting the nominee of the party, are
invited to choose two delegates from each
Congressional District, four at large from each
State, two from each Territory, and two from
the District of Columbia, to represent them in
the Convention.

J. D. CAMERON, Chairman.
THOMAS B. KEOGH, Secretary.

A Chicago dentist has been sued for \$10,
000 damages for pulling fourteen sound
teeth out of a woman's mouth.

There is some chance for the double
postal card after all. The House Committee
on Postoffices say it is a good thing.

Prince Gortschakoff is losing his mem-
ory. It is enough to tire it out to be
obliged to remember his own name, and
how to spell it.

The Weather Bureau should include in
its reports the latest probabilities con-
cerning the health of Tilden, Bismarck and
the Russian envoys.

A bill has been introduced in the House
for a uniform system of bankruptcy. What
is needed more is a uniform habit of buy-
ing only what can be paid for, and paying
for all that is bought.

In Chicago the lobby at the Council
meetings has become a thing of the past.
The members of the Council, who utter senti-
ments distasteful to the crowd. If the
voters would do better work at the polls
and less hieing at the meetings, there
would be more consistency in their ac-
tions.

Memphis has laid about fifteen miles of
new sewerage, and is cleaning house. The
effect begins already to show itself, the
mortality tables for April showing Mem-
phis as ranking seventh in point of health-
iness among forty-six cities of over 30,000
population. If Memphis will only get
clean, and keep clean, there is hope in
batting disease.

At a meeting of the Board of Supervisors
in San Francisco, at which Mayor
Kilchoff himself presided, the report of the
Judiciary Committee was presented re-
viewing Kilchoff's part in the agitation and
condemning his conduct as incendiary, and
denouncing him as unscrupulous and un-
principled. Kilchoff sat as cool as an
ice-cream and put the vote on the adoption
of the report, without a whimper. A resolu-
tion was also presented and adopted au-
thorizing his removal, yet Kilchoff still
maintained his frigidly, and appeared
unmoved. The situation must have been
embarrassing to any ordinary man, and his
coolness and cheek fully demonstrated his
extraordinary gifts to make a successful
life insurance canvasser or a lightning rod
peddler.

Chicago is a sure and enterprising
advertiser. In pressing its claims for the
location of the mint, to be established in
the Mississippi valley, it has presented
many facts showing that its population is
larger than St. Louis, that its Board of
Trade does a larger business, its banking
capital is greater, its money orders more
in number and in total amount, and its
board cheaper than that of the city of the
big bridge. There are enough good points
in Chicago's claim to entitle it to the mint,
without dragging in the generosity of
landladies, the variety of mixed drinks, and
the number of fruit peddlers, but Chicago
could never miss such a chance to show
the inferiority of St. Louis even in matters
of this kind, especially when these good
points could be urged before a Congress-
ional committee and given wide publicity
by the associated press dispatches.

Secretary Sherman has not fallen in
love with the Senate bill defining the
extent and manner of purchasing bonds by
the Secretary of the Treasury. This
new bill provides that not less than
\$5,000,000 of six per cents shall be pur-
chased each week, and that the proposed
purchases of bonds shall be published
in advance each week, and the purchase
of the amounts thus advertised for shall be
published also each week. The Secretary
wisely objects to any such arrangement,
because it would allow combinations to be
formed to dictate terms to the Treasury,
and that moreover it would compel the
use of the reserve accumulated for resump-
tion purposes, or else an increased tax-
ation. Under the present authority the
Treasury can use all its surplus re-
sources, and reject all bids, which method
not only is a safeguard against any em-
barrassing depletion of the Treasury, but
also thwarts all combinations.

THE POWER OF A CYCLONE.

In discussing the two cyclones which
visited the Bay of Bengal in October, 1876,
Mr. Elliott, Meteorological Reporter to the
Government of Bengal, incidentally gives
some idea of the cyclone forces which are
developed by such storms. The average
"tidal" evaporation" reg-
istered by the Bengal in-
struments in October is "two inches." The
amount of heat absorbed by the con-
version of this amount of water daily over
so large an area as the Bay of Bengal is
enormous. "Roughly estimated," said Mr.
Elliott, "it is equal to the continuous work-
ing power of 300,000 steam engines
of 1,000 horse power." A simple calcu-
lation will show that it suffices to raise al-
most 45,000 cubic feet of water in twenty-
four hours from every square mile of the
bottom of the bay, and transport it to the
clouds which overhang it. When we ex-
tend the calculation from a single
square mile to the whole area of this
whole Indian Gulf, the mind is lost in the
effort to conceive the force which in a
day's time, can lift 50,000,000 tons! Yet
it would be easy to show that such figures,
fabulous as they may seem, do not ade-
quately represent the cyclone forces of a
single storm.

FROM MADISON.

Special to the Gazette.

MADISON, May 5.—The Republican
convention met at 12 o'clock, being called
to order by Robert H. Baker, Chairman of
the State Central Committee. The Con-
vention was full, and was composed of
some of the best men of the State. None
of the prominent candidates for President,
have a majority and hardly a plurality.
Mr. Baker, on calling the Convention to
order, made a handsome speech.

On motion of Senator Quarles, Hon. W.
E. Carter was made temporary Chairman,
and Messrs. Quarles, Rusk and Sawyer
were appointed a committee to wait upon
Mr. Carter to the chair. On assuming
which, Mr. Carter thanked the
convention for the honor done him and
urged harmony and good fellowship.

On motion of Mr. Pratt, of Winnebago
county, C. A. Willard, of Brown county,
was elected temporary secretary.

On motion of Mr. Sanger, a committee
was ordered appointed by the chair on
credentials.

On motion of Senator Woodman, a com-
mittee was ordered on resolutions, and on
motion Mr. Platt, of Waukesha, a com-
mittee on permanent organization. The Con-
vention then took a recess until 2 o'clock
p. m.

The different Congressional district's
delegates held caucuses and designated the
following as their choice for delegates.

At Large.—Tom B. Scott, for Washburne;
E. D. Sanderson, for Sherman; G. Vanste-
en, for Washburne; J. B. Cassaday, for
Washburne.

First District.—J. V. Quarles, Charles
Painter.—preference unknown.

Third District.—W. E. Carter, T. C. Jamer,
for Blaine.

Fourth District.—General F. W. Winkler,
Dr. E. M. Rodgers, for Sherman.

Fifth District.—W. H. Hempschmeyer,
J. C. Wedge, preference not stated.

Sixth District.—Levi Howland, Philatus
Sawyer, for Blaine.

Seventh District.—G. Gilson, J. M. Rusk, for
Washburne.

Eighth District.—Isaac Stevenson, for
Grant; and S. W. Hunt, for Blaine.

LATER.

MADISON, May 5.—The Second Con-
gressional District delegation held a caucus
and voted as follows: On choice for
President, Washburne, thirteen; Grant
eleven; Sherman, one; Blaine, four. They
chose A. J. Turner a Washburne delegate,
and George E. Bryant, a Grant man, as
delegates to Chicago.

The Convention reassembled at two p. m.
The Committee on Permanent Organi-
zations reported as follows: Chairman,
W. P. McLaren, Milwaukee; Secretaries,
H. M. Kutchen, Fond du Lac, and W. H.
Joslyn, Richland. The Committee on
Credentials reported a full delegation. A
recess of fifteen minutes was then taken.

GENERAL KEY.

A Southern Man Will Succeed Him
in the Postoffice Department.

BLAINE.

His Chances Improving in the Presi-
dential Race.

WASHINGTON, D. C., May 4.—A friend of
Mr. Blaine claims to know absolutely this:
That when Senator Logan returned from
his last trip to Illinois there was a confer-
ence of Grant leaders, at which Logan
stated the danger of defeat which threat-
ened Grant in Illinois, and said that Wash-
burne was working for Blaine with tremendous
energy, and something ought to be done;
that Cameron suggested at that time that
Logan ought to return to Illinois with
"plenary power," whatever that may
mean, and make it certain that the Illinois
Convention should be carried solid, if
possible, and at any rate should be in-
structed for Grant, and that Illinois, with
Pennsylvania and New York, and the
southern votes, would make Grant's nomi-
nation certain; that, upon this representa-
tion, Logan did return last Saturday to
Illinois. Meanwhile, however, the out-
break in the Pennsylvania delegation in
Chicago in favor of
Blaine, which has long been anticipated,
has occurred, the result of which seems
likely to be the practical loss of the State
to Grant. The Blaine men here certainly
are very confident that the majority of the
delegates from Pennsylvania to Chicago
already have signed or soon will sign an
agreement to vote for Blaine on the first
ballot. It is even intimated that Grant
men among the delegates in Pennsylvania,
discovering what the situation is, have al-
ready been to Washington and endeavored
to make terms.

MISSISSIPPI.

General Grant Will Have a Clean
Sweep of the Delegates.

JACKSON, May 4.—Many delegates to the
State Republican Convention have already
arrived. All report that their constituents
are practically unanimous in favor of Grant.

THE DISTILLERS.

They Gain a Point in the House of
Representatives.

WASHINGTON, May 4.—The internal re-
venue bill, which passed the House to-day,
is exclusively in the interest of distillers,
and relieves them from a great deal of
trouble and expense, being at the same
time greatly to the disadvantage of the
government. While it is not a political
question, opposition to the bill was com-
posed almost exclusively of Republicans,
who were led with great ability by Mr.
Conger, of Michigan. Conger fought the
bill at every step, and offered a large
number of amendments, which were
voted down by the whisky men. The
bill will reduce the revenues from \$2,500,-
000 to \$3,000,000 each year.

PENNSYLVANIA.

PHILADELPHIA, May 4.—There is no
longer any question of a break in the
Pennsylvania delegation to Chicago. Mut-
terings and even open revolt from the
country districts have grown too loud to
be disregarded, and many of the districts
have openly notified the delegates that they
must agree to discharge the unit
rule or be prepared to face contesting de-
legations with credentials signed by the
regular District Conventions. One County
Convention after another has taken up the
matter, until the city delegates have
finally agreed upon a caucus to decide
upon a course. An informal meeting was
held privately last evening, but nothing
was done further than to show that there
was very strong feeling against Grant.

CONGRESSMAN ORTH.

WASHINGTON, May 4.—Congressman
Orth, of Indiana, made a very long and
elaborate personal explanation to the
House to-day, which occupied almost the
whole hour. It was with reference to
charges that have been so long current
against him in connection with the Ven-
ezuela claims, and he began by going back
to the origin of these claims, and follow-
ing down the history when, in the House
of 1870, he had, as a member of the For-
eign Affairs Committee, concurred in the
report affirming their justice, and he still
believed as he always had done, that they
were honest and valid.

SITTING BULL.

The Cabinet has His Case Under
Consideration.

WASHINGTON, May 4.—In the cabinet
meeting to-day all the secretaries were
present. Sitting Bull was up again for
consideration. He is attempting to enter
into some sort of negotiations with the
Government by which he may return to the
United States, and not be scalped for
previous misdeeds. He does not like the
climate in British America, and game is
scarce. He prefers the United States as a
place of residence. It was the unanimous
determination of the Cabinet that he could
only return upon condition of unconditional
surrender. This information will be
transmitted to Sitting Bull, care of John
Bull, in as delicate a manner as possible.

SUICIDE.

ST. LOUIS, Mo., May 4.—An extraordi-
nary suicide occurred in this city at about
5 o'clock this afternoon. A man was ob-
served standing near a railroad track in
the southern part of the city apparently
waiting for a train. When a train at length
appeared in sight he ran upon the track,
and, finding a spot suited to him, laid down
deliberately with his head upon the rail,
just as the train came near. The wheels
cut off his head neatly, throwing it some
distance from the body. The face wore a
smile from the head was picked up, and
was not marred in any way. The man
has not been fully identified, but the face
is declared by some who have seen it to
be that of a German named Xager.

REFUSED.

ATLANTA, Ga., May 4.—The Supreme
Court has refused a new trial to Cox, the
murderer of Alston. He goes to the peni-
tentiary for life. There is no hope of par-
don.

RUSSIA AND CHINA.

Preparing for War—Rumors of a Con-
flict—Decapitation.

BERLIN, May 4.—A well informed St.
Petersburg correspondent writes that war
between Russia and China is nearly cer-
tain.

HONG KONG, China, April 7.—Affairs be-
tween China and Russia are still threaten-
ing. Rumors are current of a conflict
between the troops of the two nations on
the frontier, and of the Chinese forces
having crossed the Amur river.
The sentence of decapitation of Chung
How, late Ambassador to Russia, and col-
lator of the treaty to Livadia, has been
approved by the Empress.

FOREIGN.

LONDON, May 4.—Upward of 7,000 iron
workers are on a strike in the north of
England against the 5 per cent reduction
of wages awarded by the arbitrators.
HAWAII, May 4.—A fire at Palma Sor-
iano, near Santiago de Cuba, destroyed 100
habitations, and many families are in dis-
tress.

SALOON ROW.

MANITOWOC, May 4.—Joseph Nelskosh,
of Coopers town, this county, received in-
juries in a saloon row at that place a few
days ago, by being hit on the head with a
beer glass, from the effects of which he
has since died. The murderer escaped.

WHITEWATER ELECTION.

WHITEWATER, May 4.—The village
election here was sharply contested to-day.
The question at issue was license or no
license. F. C. Kiser, a no license candi-
date, was elected President by four ma-
jority.

LICENSE WINS.

PALMYRA, Wis., May 4.—At the village
election to-day the license ticket was
elected by a large majority.

SHOP LIFTERS.

The Tricks of Trade—the Women
Whose Hands fly faster than the
Observers Eyes.

New York Sun.
"We estimate our losses from shoplifting
at \$10,000 a year," said one of the prop-
rietors of a large east side dry goods and
fancy goods store yesterday. "In the busy
hours you cannot estimate the number of
people that come to this store. If you
watch them from the galleries they swarm
like ants. To serve them we employ be-
tween 900 and 1,000 persons. We have to
watch them all customers and clerks alike.
On the other hand it is a prime necessity
to display our goods, and to display them
in such a way as will tempt the dishonest."

"Shop girls are burdened with a reputa-
tion that they don't deserve, and I hate to
say anything against them," continued the
shop keeper, "for there are girls working
for us who bend their necks to the yolk of
only labor from necessity, and whose
every instinct and action is that of a
lady. But some of the girls
formed a ring with outsiders, and we dis-
covered them selling the best goods and
sweeping up checks for a nominal figure,
25, or 50 cents, when the real price paid
have been as many dollars. We get in-
formation against the girls sometimes from
customers. For instance, the last case was
that of a person who wrote that such and
such a looking girl at such a counter was
seen to drop a check on the floor and send
up a check for so much less than the real
price. Whenever our attention is
directed against employees we generally
catch them."

"Do the cash boys steal?" he was asked.
"We lose a great deal by boys, both in
our employ and outside. You'd be aston-
ished if you knew the number of the sons
of respectable people—often little
boys—that we catch stealing.
Among our cash boys there have been
some very ingenious thieves. One little
fellow tore leaves out of his cash book so
nicely that it was not discovered by the
cashier, although it might have been that
night. We suspected him and took him
into a private office, where we talked to
him earnestly. He admitted his guilt, and
said he put the money in his shoe. There
we found over \$14, the stealings of only a
few hours. But there was a smarter boy,
although I suspect he had adult accom-
plices outside. He carried on his person a
little pad soaked with printer's ink, and an
exact facsimile of the cashier's stamp, cut
on the end of a cork. Whenever he got
the exact price of an article sold from the
saleswoman he went away and stamped
his cash book, and brought it back as if
from the cashier's desk."

"Professional shoplifters," continued the
speaker, "very often wear great cloaks.
They can put away a great deal under
them. By raising their folded arms under
their cloaks they conceal the added size
the stolen articles give them. They have a
pocket made in the front of their dresses
big enough to hold a number of large
packages. Why, when we unloaded a
woman here one day we took out of that
pocket all that a good sized boy could carry
on his outstretched arms. I remember how
indignant that woman was when accus-
ed."

"The hands of an experienced shop-
lifter work faster than the eyes of an ob-
server. A Central office detective stand-
ing in the store one day saw a woman
putting away silk handkerchiefs. She'd
hold one up as if to examine it, and then
she'd suddenly pass it into her other hand
and then into a bag front pocket with
such lightning-like rapidity that the de-
tective couldn't tell what she was doing,
but he thought she was putting them back
on the counter. He made a study of
the subject and caught her. Shop-
lifters often steal our values,
and baskets, and then go around the store
doling them up. We know a good many
of the profession. We sent a man to the
trial of Mr. and Mrs. Volkenner, who were
accused lately of an attempt to poison Mr.
Blair, of Chatham, New York. You re-
member it was said that Mrs. Volkenner
and Mrs. Connolly who lived with her
were shop lifters. He came back and
said that the face of the big woman (Mrs.
Connolly) was a familiar one in our store.

EVER BROUGHT TO THIS CITY. LADIES ARE INVITED TO CALL AND SEE SAME.

There is a girl 18 years old, residing on the West side, who has a strange idea, and has had for two years; that if she did eat a certain amount of cabbage daily, she would remain in good health and live forever. Accordingly she has never missed a day since she first became infatuated with the delusion. She belongs to a wealthy family, and on last Wednesday she forgot to partake of her regular allowance until nearly 10 o'clock p. m., when she suddenly became sick, and only by the strenuous efforts of a brother, who procured her some from a neighbor, as they were entirely out of this vegetable, that she recovered and is now as well as ever. It is a strange case and is examined into by physicians. The Exposition building is now all ready for the National Convention, and fixed up in splendid style. It is so arranged that the audience will have no trouble whatever, in seeing or hearing from any part of it. Reporters' rights are respected in every particular, so far as good seats are allowed.

CAUTION.

A WORD TO THOSE WHO USE POROUS PLASTERS. It is a universally acknowledged fact that BENSON'S CAPCINE POROUS PLASTERS ARE SUPERIOR TO ALL OTHERS.

The great demand for them has caused a number of unscrupulous parties to make and sell worthless imitations under similar sounding names. As the market is flooded with inferior plasters selling at any price it is important for the consumer to know which is the best. It is well known that some of the cheap plasters have been examined and found to contain injurious ingredients which make them dangerous to use, causing paralysis and other diseases.

SEABURY & JOHNSON, Pharmaceutical Chemists, New York. PRICE 25c.

CAUTION--See that the word CAPCINE on each plaster is correctly spelled.

COUSINE CURIOSITIES.

A lunch at a Fashionable Chinese Restaurant in San Francisco.

A correspondent of the New York Tribune, who has recently visited the Chinese quarters in San Francisco, thus pictures a lunch at one of their leading restaurants:

A Chinese dinner is not to be recommended. It is too greasy, and that Mosaic abomination, the pig, not only appears frequently as piece de resistance, and in sundry clever disguises, but contributes an unmistakable flavor to nearly every dish. It comes in the full pomp of the board's head or in the more attractive form of the tender "roast", the praises of whose "crackling" Eats has sung. Each restaurant uses several wagon loads of hogs daily. The animal is boiled, roasted, fried, triced, minced; it forms the unsavory contents of the innocent looking dumplings and is disguised in a dozen deceptive courses. Not even the daintiest of sweetmeats can remove its contaminating touch from the palate. Hence, for the curiosity seeker who has a stomach not under perfect control, it is safer to try the lunch served at midday, in which few meats appear. The garcon appears with two tescups and a saucer and a bottle of boiling water. In one cup he puts a pinch of dry tea, pours the water upon it and covers it with the saucer. Your tea is then "drawing." Quickly he returns with chop-sticks and the regular lunch. The bill comprises three egg cakes; two dumplings, with a species of Chinese strawberry mark on the top; three scraps of an unknown part of the pig; a dish of preserved watermelon and another of sweetmeats. The tea is now steeped, and placing your forefinger on the saucer you lift the cup up and allow a thin stream of the fragrant beverage to escape into the saucer. You will win the good graces of the waiter if you shake your head when he asks you if you want sugar. It never occurs to him that you could ruin the cup with milk. The tea, made of the tender shoots of the plant, tastes like unusually fine English breakfast, but with a more delicate flavor and aroma. By its aid you may eat sparingly of the dumplings, relish the egg cake in spite of the lard in which it is fried, enjoy the watermelon and devour the sweetmeats. Of the pork, the odor alone is ample; a long drawn snell would be equal to a surflet. All these dainties are eaten with chop-sticks by the Chinese around you, but the use of these articles comes with culture, not art. It is idle to imitate the skill of your neighbors; you will drop all the fat on the table. Better is it to accept the offering of an old fashioned battered knife and fork, which the proprietor doubtless gathered in at an auction sale of antique household goods. There is no limit to the amount of tea you may guzzle. The attentive waiter will fill your cup again with hot water, and singular to relate, that a leaves give out strength and aroma after much cooking. The excellent this refreshment is only twenty cents. A regular dinner, at which meat, coffee and rice brandy are served cost forty to seventy five cents according to the number of courses.

Official Paper of the City and County.

BRIEFLETS.

—Bring out the straw tiles.
—Ascension day to-morrow.
—Tramps are few and far between.
—The out door cleaning is being done by the yard.

—Mrs. Rufus Royce is in the city for a few days visiting Mr. Wm. A. Lawrence and family.

—The necessary steps are being taken for calling a meeting of the County Board on the 25th inst.

—In the Circuit Court to-day the case of Brittan vs. North, from Beloit is on trying the time.

—The funeral of the late Gen. Brewster Randall will be held at the residence to-morrow afternoon at 2 o'clock.

—In the case of Cauffman vs. Stevens, in the Circuit Court the jury has found for the plaintiff. The defendant wants a new trial.

—Dan Williams, who has been on an extended trip East, returned last evening, and will resume his studies in Dr. Palmer's office.

—Dennis Hayes, who lives about four miles from the city, was tumbled out of a wagon last Sunday, and had his left arm dislocated.

—Charles Carter is in town again having finished the closing out sale of McKee & Bro. at Watkisson and Fort Atkinson, file next streets Watkisson.

—There will be services at Christ Episcopal church at 11 o'clock to-morrow morning, and at Trinity Episcopal church at 10 o'clock a. m., Ascension day.

—Marshall Russell was taken quite suddenly and severely ill, last night, with cholera morbus. Dr. Judd was called in, and to-day reports the patient as better.

—Mr. Decker who lives but a short distance from the city, was thrown by the stumbling of a horse he was riding yesterday, and suffered a dislocation of the right elbow.

—Prof. O. S. Fowler, writes from Cedar Rapids, Iowa, that he expects to be in Janesville about the close of the present month and will deliver two free lectures on Phrenology.

—J. W. Nash expects to move his grocery store into his new building across the street next week, and as soon as that as the shelving can be put in order, E. I. Waiton & Co., will move into Nash's old store.

—Conductor Stuckney, of the First Ward, has commenced on the law mow business early. A week or ten days ago we saw him clipping off one crop of grass, and now there is chance for more shearing. His law is a good one.

—The Wisconsin Shoe Company's factory is rushed with business. One hundred persons are now employed, and eighteen hundred pairs of shoes are being made weekly, and still they are behind the orders, watch keep coming in. In fact the business is booming.

—There is some talk of having one of the busses run from the First Ward each morning to the High School building to accommodate those who have to climb the hill. A bus line would be well patronized on one trip a day at least, if the fare could be made a nickel.

—Charles Atwood has been elected a member of the Sack Company to fill the vacancy caused by the resignation of Hiram Merrill, who for over seven years has served most faithfully and acceptably as a member. Charles will wear the star and carry the lantern with honor.

—William Jones, who has so long eluded arrest, but who was at last captured last Saturday night, has taken a change of venue from Justice Brooks to Justice Wickham, and secured a continuance until the 19th inst., giving bail of \$50 for his appearance then to answer to the charge of assault.

—Mrs. W. W. Clarke, of Milton, reminds the Gazette that there is such a thing, after all, as genuine maple sugar. Her brother has just returned from the East, and brought direct from the sugaring camps, some most toothsome bricks of sweetness. The samples sent as seem to meet a long felt want.

—It is fortunate that Janesville has a new directory so that the Mayor need not skip any names in making nominations for Street Commissioner. If the Council continue to refuse to confirm his nominations, it would be a good thing for him to present the whole book, and let them start in on the names in alphabetical order, and settle it themselves.

—The Odd Fellows are providing themselves with new caps of black broad-cloth, straight visor, bell shaped crowns, and trimmed with two rows of half-inch silver lace, while in the front appear the three links, and the number of the lodge in silver. With these caps the members will appear to much better advantage on parade. One lot has already been received for the members of No. 14, and another lot will be ordered soon. Those members having caps are requested to bring them to the lodge room to-night.

THE WEATHER.

REPORTED BY FRANKLIN & EVERTON, DRUGGISTS.

The thermometer at 6 o'clock last evening stood at 79 degrees above; at 1 o'clock a. m. to-day at 74 degrees above; at 7 o'clock a. m. at 62 degrees above, and at 1 o'clock p. m. at 50 degrees above. Cloudy.

The indications to-day are southerly winds, warmer, partly cloudy weather, followed by rain in the upper lakes, and possibly cooler northerly winds.

A BELOIT BLAZE.

A fire at Beloit broke out in Dale's old ice house yesterday afternoon and burned it to the ground. A cottage adjacent to it was also destroyed. The ice house contained about 150 tons of ice, most of which can be saved. The loss on the two buildings amounts to \$600, and there is no insurance.

No cause of the blaze has been ascertained.

JAIL DELIVERY.

There seems to be no doubt about it this time. Mrs. Fogarty now has a boy baby which was born Sunday night in the Elk-horn jail, where she is awaiting trial for the murder of her husband last October. The case is a peculiarly sad one, and Elk-horn folk seem greatly excited over the event.

BURNING OIL.

Between 9 and 10 o'clock last night the fire bells tapped out an alarm, which was quickly responded to. It proved to be only a slight accident, a kerosene lamp having exploded in the home of Patrick Ford, on River street. Only a nominal damage was done to the house, but Mrs. Ford had her arms rather badly burned. The house is owned by Mrs. Heffron, and is located just south of the Harris works.

SCARE AT EVANSVILLE.

Sunday afternoon as D. L. Mills, and his son, in company with Mayhew London, of this city, who was visiting at Evansville, were walking about that town, they discovered smoke coming from the factory of Baker & Co. The alarm was given, and the fire suppressed before any damage was done. The fire resulted from spontaneous combustion in a pile of sawdust near one of the machines, and had it not been discovered just as it was, the loss would have been great, as the facilities which Evansville has for suppressing a blaze, are not such as would have prevented the destruction of the entire factory, where a large number of men are employed making wind-mills. A large tobacco warehouse adjoins the factory, and other buildings are so close that a fire once under way would be apt to sweep them all into ruin. The fire alarm caused a general panic from the meeting house, which was crowded at the time with those listening to a temperance lecture, but in the frightened rush no one was hurt.

THE POLICE COURT.

To-day Mrs. Mary Griffin appeared before Justice Nolan, on a charge of using abusive language to a son of Mrs. Barry, her neighbor. A trial resulted in her conviction, and she was fined \$3 and costs.

Mrs. Barry, herself, was then called on to answer to a like charge on complaint of Mrs. Griffin's husband. A continuance was taken until next Monday.

Jacob Heller was arrested on complaint of his wife, for threatening her with violence. The case was adjourned until the 12th inst.

Dennis Foley, the fellow who disrobed on the river bank, was fined \$1 and costs for exposure of person.

Edward L. Clyde and Jefferson U. Clyde were brought before the bar on the complaint of S. P. Hoskins, who charged them with stealing fifteen bushels of apples. The Clydes had a notion store on Milwaukee street in the basement of which Hoskins kept apples, which he was handing on commission, and he claims that the Clydes kept helping themselves to the above extent. The case was continued until the 19th inst., the accused giving bail for their appearance.

LAST NIGHT'S SHOW.

Pat Rooney's show was given at the Opera house last evening. The public did not forget the unsatisfactory attempt to entertain them by a similar show some months ago, and as a result the receipts amounted to only half of what they did then. The show was a rehash of the old one, and was not even warmed over but set on cold. The same dodge as regards prices was given. The company advertised "the usual prices," but the ticket seller explained last night that "our usual prices are fifty, seventy-five cents and a dollar," the fifty cent tickets admitting only to the gallery. As long as such entertainments as the Mendelssohn Quartet Club and Remenyi can be had for fifty cents, there are not many who care to squander seventy-five cents or a dollar in seeing mere grimaces and contortions, showing no particular intelligence and very little agility. The least that Pat Rooney and his company could have done would have been to make some changes in the programme, so that a variety would have been gained. We predict that the next time Pat comes to Janesville he will find it profitable to push right through, and not stop to show up.

WOMAN'S CURIOSITY.

About the middle of last March Helms street, the druggist, distributed among the ladies of the city and vicinity about five hundred little envelopes securely sealed, and bearing on the outside these mysterious words "Keep this until after May 1, and then bring it to Helmsstreet's drug store. Not good unless returned unopened." These little envelopes contained something, as was evident by the feeling, but

what that something was, proved a mystery. The temptation to open the envelopes, and find out, was too great for the majority of the fair ones in whose hands these envelopes were placed, and in most cases after holding it up to the light, feeling of it, smelling of it, and then laying it away for a few minutes or hours, and sometimes days, it would be picked up again, looked at, and at last—well they couldn't stand it, and the envelope would be torn open. Inside was a ticket for one glass of soda or mineral water, which was of no use after the envelope had been opened. There was waiting and gnashing of teeth at the result of their curiosity. Out of the five hundred, only fifty-four have returned their envelopes unopened. Most of those were quite young ladies, and most of them admitted that their success in repressing curiosity had come from hiding the envelopes out of sight, and not allowing themselves to think of it. It proved a very practical test to determine the power of curiosity.

HARMONY.

—Last week was a sad week to many in this town. We have to record the deaths of Mr. A. J. Bennett, one of the first settlers of this town, and a highly respected citizen, and Mr. Henry Wilcox whose death has been looked for some time, he having a lung difficulty.

—Business is improving among the farmers. The indications held out by the better times has increased their energies to do their best and one better. A great many farmers have the tobacco fever and quite a large number of acres will be set if everything is favorable.

—Mrs. Morris Wilcox is very low with inflammation of the lungs.

—Mrs. Rose Orant, the postmistress, met with quite an accident, last Sunday night, by falling down the cellar stairs, cutting open her head, spraining her right arm, and giving her a general shake up. Dr. Barrows was sent for and made an examination, finding no bones broken, but a bad scalp wound, and should be somewhat injured. He thinks she will be out soon, if careful.

—Mr. Hulet Story has added a new wing to his house.

—Mr. Lon Clark has bought the Solbach Wilbur farm, and has got settled once more in our town. One more good Republican will be added to the list.

—Mr. George Wauke is visiting friends in Iowa, and Nebraska, and will be gone a year.

—John Cunningham is making some addition to his house by putting on a wing, &c.

—Mr. Charles Rice has the timber on the ground for a tobacco barn. Mr. G. S. Orcutt is to do the work.

Pretty and Young.

in every feature but the hair, which had grown white from fever. This lady at 35 writes us: "I have used Parker's Hair Balsam six months and am more than pleased with it. It has restored the natural brown color of my hair and given it a silky softness, nicer than ever before. There is no Dandruff, no falling hair, and it leaves the scalp so clean and nice and cool that I am ever so much pleased, and I feel and look like myself again." The beautiful, fresh and vigorous hair it produces, together with its property of restoring gray or faded hair to the natural youthful color, and thereby freeing the scalp from dandruff and itching, surprises no less than it pleases. Sold in large bottles at only 50 cents and \$1.00 by all first class druggists.

CITY NOTICES.

—Lost—On April 24th, in this city or on Milton Avenue, a black and slate colored woolen shawl. The finder will please leave the same at this office.

From the easy expectation, increased respiratory power of the Lungs, and the removal of Cough and other alarming symptoms, after using Fellows' Compound Syrup of Hypophosphites, it is clear that the formation of tuberculous matter is not only stopped, but that already deposited is being carried away.

There is not a mother on earth who has ever used it who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere, 25 cents a bottle.

For Soils and Carburines. From Rev. Richard Edes, of Bolton, Mass.

For years I was a sufferer from boils, so that my life became wearisome through their frequent and persistent recurrence. A carbuncle, which ultimately occupied a space of three or four square inches, formed in the small of my back. During its progress large pieces of decomposed flesh were every day or two cut away; and the prostration and general disturbance of the system were great. Before I had recovered from this attack two smaller carbuncles broke out

higher up, and I was again threatened with a recurrence of the sufferings to which I had so long been subjected. It was at this time that I commenced taking the "Purifying Syrup." I continued taking it until I had used five bottles; since then I have had nothing of the kind. I attribute this improved state of the system entirely to the PURIFYING SYRUP; and I feel that I cannot express my obligations to it in terms too strong. For years I was one of the greatest sufferers. Other medicines gave me partial and temporary relief; but this remarkable remedy, of a purgative nature, went directly to the root of the evil, and did its work with a thoroughness worthy of its established character." Sold by dealers generally. Sold in Janesville by Prouty & Everson. my34adwim
